INTASTOP LAUNCH FULL LENGTH FIRE RATED REMOVABLE DOOR STOP

Intastops expertise in the anti ligature market has led them to resolve the problem of barricade situations with a full-length fire rated doorstop.

Designed in conjunction with a mental health trust this anti ligature solution resolves a number of problem areas and shows off a number of benefits.

Ideal for use in psychiatric accommodation, bedroom & ensuite doors, nursing homes and many disabled facilities this one-hour fire rated continuous removable doorstop (full length of the door) enables emergency outward opening operation of doors that normally open inwards to help eliminate barricade situations.

It has secure locking top and bottom with a sloping tip ensuring no ligature point and is suitable for either pivot or floor sprung hinges.

Intastop are also able to offer in their anti ligature range a full length continuous geared hinge, vision panels as well as a unique anti ligature package combining controlled, concealed Door Closer & Continuous hinge.
